- Zhao L *see* Li G *et al*
- Zhong G. Hydrogen sulfide-A potent multichannel anti-arrhythmic drug 37
- Zhou P *see* Wang J *et al*
- Zhou P, Wang J. Genetic testing for channelopathies, more than ten years progress and remaining challenges 47
- Zhou P, Yang X, Li C, Gao Y, Hu D. Quinidine depresses the transmural electrical heterogeneity of transient outward potassium current of the right ventricular outflow tract free wall 12
- Zhu Y. Excitation-contraction coupling and cardiac contractile force 45
- Zhu Y. Preface to the third issue of Journal of Cardiovascular Disease Research 97

Title Index - 2010

- A brief introduction of New Editorial Members 50
- A colossal atrial myxoma 158
- Allopurinol and global left myocardial function in heart failure patients 191
- Analysis of a vascular screening program in a rural community 92
- Aortico-left ventricular tunnel experience on three different ages 206
- Association of metabolic syndrome with obesity measures, metabolic profiles, and intake of dietary fatty acids in people of Asian Indian origin 130
- Cardiac findings in acute yellow oleander poisoning 27
- Change of the aortic elasticity in rheumatoid arthritis: Relationship to associated cardiovascular risk factors 110
- Circadian variation on the onset of acute ST segment elevation myocardial infarction in diabetic subjects 23
- Diagnosis and surgical treatment of carotid body tumor: A report of 18 cases 122
- Effects of positive acceleration on the metabolism of endogenous carbon monoxide and serum lipid in atherosclerotic rabbits 75
- Excitation-contraction coupling and cardiac contractile force 45
- Factor analysis of risk variables associated with metabolic syndrome in adult Asian Indians 86
- Genetic analysis of Brugada syndrome and congenital
